SUMMARY

Data Analyst and Power BI Developer experienced in designing, developing, and maintaining business intelligence dashboards using Power BI, DAX, Power Query, and Excel. Skilled in ERP data extraction, data cleaning, transformation, data modeling, DAX measures, Row-Level Security (RLS), and user-based report access management. Independently manage the company's Power BI reporting environment, including report development, maintenance, publishing, and access control. Strong foundation in SQL, Python, and statistical analysis with the ability to deliver reliable, business-focused reporting solutions.

SKILLS

Programming Languages: Python, SQL, R (Basic).

Libraries: NumPy, Pandas, Matplotlib, Seaborn, ggplot2, dplyr, tidyr.

Databases: PostgreSQL.

BI & Analytics: Microsoft Power BI, DAX, Power Query, Data Modeling, RLS, Data Cleaning, Data Visualization, EDA, Statistical Analysis, Excel, SPSS, Eviews.

Development Tools: Jupyter Notebook, VS Code, PyCharm, GitHub.

PROFESSIONAL EXPERIENCE

Data Analyst | Printech Packages, Karachi

Feb 2026 – Present

- Independently manage the company's Power BI reporting environment, including dashboard design, development, maintenance, publishing, and user access management.
- Design and develop interactive Power BI dashboards and reports to monitor business performance and support data-driven decision-making.
- Extract operational and business data from the company's ERP system and perform data cleaning and transformation using Excel and Power Query.
- Develop data models, establish table relationships, and create DAX measures, calculated columns, and KPIs based on business requirements.
- Implement Row-Level Security (RLS) and manage user-based access permissions to ensure users can view only authorized data.
- Perform data validation and quality checks to ensure accuracy, consistency, and reliability of reports and dashboards.
- Collaborate with stakeholders to understand reporting requirements and independently deliver dashboard enhancements, modifications, and new reporting solutions.
- Monitor and maintain existing Power BI reports to ensure continued accuracy, usability, performance, and availability for authorized users.

SELECTED POWER BI PROJECTS

- Customer Segmentation Report** – [GitHub](#) | [View](#)
 - Built an interactive RFM-based dashboard to segment customers, analyze behavior, and identify high-value and at-risk customers for targeted marketing.
- US Ecommerce Dashboard** – [GitHub](#) | [View](#)
 - Developed an interactive dashboard using Power BI, DAX, and Power Query to analyze sales, profit, customer segments, products, shipping, and regional performance.
- Global Sales Dashboard** – [GitHub](#) | [View](#)
 - Developed an interactive Power BI dashboard using DAX and Power Query to analyze multi-year sales trends, product performance, and YoY growth, enabling data-driven sales decisions.

EDUCATION

Bachelor of Science in Statistics

Federal Urdu University of Arts, Science & Technology (Gulshan Campus)

February 2022 – December 2025

CERTIFICATE

Advance Diploma in Information Technology (ADIT)

Pak College

LANGUAGE

- Urdu: Native
- English: Intermediate (Reading & Writing), Basic Speaking.
